#### Plug&Play All Gigabit Lan switch

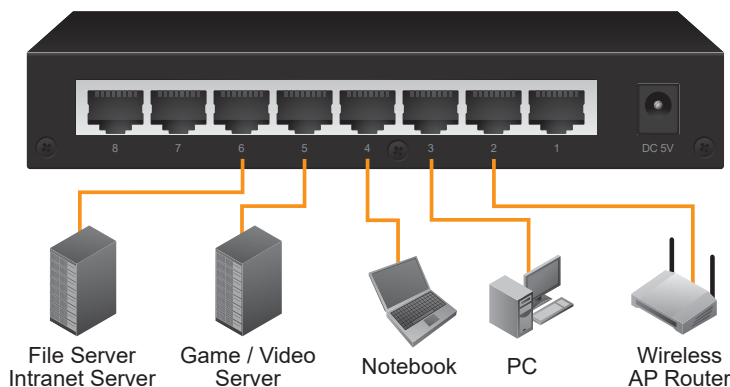

The Live-M8G is an 8-Port Gigabit Switch. Each port is equipped with auto-MDI/MDIX to eliminate the need for cross-over cable. In addition, N-way auto-negotiation function ensures plug&play simplicity. Moreover, the rich diagnostic LEDs on the front panel provide the status of individual port and system.

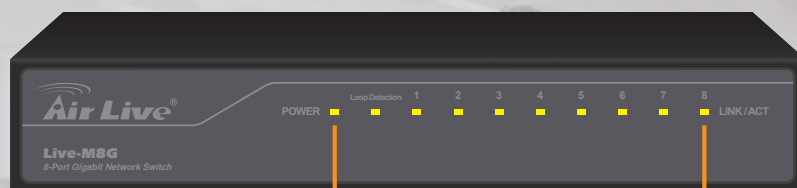

#### Support Ethernet Loop Detection

Live-M8G also supports Ethernet Loop detection. This function can prevent the whole system crash when lookback issues happen.

AirLive's Live series is the master piece of performance, reliability, and simplicity.
