Part #: BX002DALS9KR

2 CHANNEL

B-Series Breakout Riser Rated Cables

Laser Ultra-Fox™ Fiber Performance		
Fiber Code	ALS	
Industry Standard Designation	Laser Grade OM2 ISO/IEC 11801	
Core/Cladding Diameter (µm)	50/125	
Numeric Aperture	0.20	
Wavelength (nm)	850/1310	
Gigabit Ethernet Distance (m)	600/600	
10-Gigabit Ethernet Distance (m)	82/300	
Maximum Cabled Attenuation (dB/km)	3.5/1.5	
Minimum Laser EMB Bandwidth (MHz-km)	510/500	
Minimum OFL LED Bandwidth (MHz-km)	500/500	
Primary Coating Diameter (µm)	245	
Secondary Buffer Diameter (µm)	900	
Proof Test Level (kpsi)	100	

Installation and Operating Characteristics			
	Installation	Operating	
Max Tensile Load	1,200 N (270 lbs)	500 N (110 lbs)	
Min Bend Radius	10.5 cm (4.1 in)	7.0 cm (2.8 in)	

Mechanical and Environmental		
Crush Resistance TIA/EIA-455-41A		
Operating Temperature		
Storage Temperature		

Cable Characteristics		
Jacket Color	Black	
Jacket Material	Indoor / Outdoor PVC	
Buffer Material	Hard Elastomeric	
Subunit OD	2.5 mm	
Cable Weight	41 kg/km (28 lbs/1000')	
Cable Diameter	7.0 mm (0.28 in)	

2 CHANNEL B-Series Breakout Riser Rated Cables

Part #: BX002DALS9KR

Standards

Optical Cable Corporation indoor/outdoor tight buffered fiber optic cables meet the functional requirement of the following standards:

- UL 1651
- UL 1666
- GR-409-CORE
- ICEA-S-104-696
- ICEA-S-83-596
- TIA-568
- TIA-598

Applications:

- Ideal for installations requiring an extremely rugged and reliable cable design where maximum mechanical and environmental protection are necessary
- Easiest cable to install where direct termination of the subcable to a connector and a direct run to panels and equipment are desired

Cost Savings:

- · Direct termination to subcable may eliminate the need for patch panels and patch cords and reduces connector loss
- 900 µm buffer eliminates the need for costly and time-consuming installation of fanout kits or pigtail splices because connectors terminate directly to the subcable
- · High crush resistance may eliminate the need for innerduct

Features:

- High performance components and construction
- UL Listed in accordance with NEC sections 770.179(b) for use in vertical runs in building riser shafts or from floor to floor
- Most rugged and easy to install cable design for enterprise cabling applications
- Core-Locked[™] outer jacket design for installation survivability and long-term,trouble free service
- · Ideal for use in long, vertical installations
- 2.0mm subcables can be direct-terminated with standard connectors (2.5mm and 2.9mm subcables also available)
- Subcabled fiber is environmentally and mechanically protected
- Ideal for use in point-to-point runs in adverse environments
- · Direct termination to subcable provides additional strain relief for better connector retention during moves, adds, and changes
- Design is ideal for direct pulling with mesh grips
- · Cable materials are indoor/outdoor UV, water and fungus resistant
- Wide operating temperature range of -40°C to +85°C
- High performance 900 µm tight-buffered coating on each optical fiber for environmental and mechanical protection
- · Interlocking armor can be applied to cables as an alternative to conduit installation
- 2 to 72 fibers
