6 CHANNEL D-Series Distribution Corrugated Steel Tape (CST) Armored Cables

Part #: DX006

## Standards

OCC CST armored tight-buffered fiber optic cables meet the functional requirements of the following standards:

- ICEA-S-104-696
- TIA-568
- TIA-598

## **Applications:**

• Ideal for installation where direct-burial or rodent protection is required

## Features:

- The steel armor is easily removed with an internal ripcord, leaving a fully functional intact riser-rated inner cable, with original cable markings for identification.
- · Armored jacket is an add-on option which can be applied to most outdoor and indoor/outdoor riser-rated cables
- Inner tight-buffered cable is suitable for direct field termination with standard optical connectors
